AVIWE BALENI

Name: Aviwe
Surname: Baleni
Gender: Male
Nationality: South African
Equity: African
Languages: English, IsiXhosa, IsiZulu
Driver's License: Yes
Residential Area: Midrand
Areas Available for Employment: Johannesburg, Pretoria, East London, Port Elizabeth

PERSONAL PROFILE

Computer Science graduate experienced in developing backend services, connecting user interfaces to scalable APIs, and supporting deployments in cloud-oriented environments. Hands-on with Java, application security, and data management, with a clear understanding of how development decisions affect performance and operations. Recognised for writing clean, testable code, learning fast, and stepping up when responsibility is needed. Thrives in disciplined teams where collaboration, accountability, and continuous improvement drive results. Eager to bring immediate value and expand technical depth within a forward-thinking organisation.

TECHNICAL SKILLS

- Java
- Spring Boot
- REST APIs
- SQL / PostgreSQL
- JavaScript
- React JS
- HTML5 / CSS3
- Git
- Oracle Cloud Fundamentals

WORK EXPERIENCE

Full-Stack Developer

ICEP – Informatics Community Engagement Project

12 Month Program

- Translated feature requirements into technical designs.
- Developed full-stack solutions using React and Spring Boot.
- Built REST APIs integrated with PostgreSQL.
- Performed debugging and performance tuning.
- Participated in Agile sprint planning and reviews.

Diploma in Computer Science

Tshwane University of Technology

2021 – 2024

Matric

Hexagon High School

2020

COURSES & CERTIFICATIONS

Courses

- Programming in HTML, CSS & JavaScript
- Java Fundamentals (OCA)
- Java Advanced (OCP)
- DevOps Fundamentals

Certifications

- Oracle Cloud Infrastructure: Certified DevOps Professional(1Z0-1109-25)
- Oracle Cloud Infrastructure: Certified Developer Professional (1Z0-1084-25)
- Oracle Cloud Infrastructure: Certified Data Science Professional (1Z0-1110-25)
- Oracle Cloud Infrastructure: Certified Foundations Associate (1Z0-1085-25)
